## **A giant leap for amphibian conservation: South Africa's "Frog Lady" wins 2020 Whitley Award**

*Start*

A conservation biologist from South Africa has won a prestigious Whitley Award worth £40,000 to support her quest to save threatened amphibians.

Dr Jeanne Tarrant, known locally as the "Frog Lady", works for the Endangered Wildlife Trust (EWT), where she manages the Threatened Amphibian Programme. The EWT is the only NGO in South Africa to include frogs as a conservation focus.

The Whitley Awards, often referred to as 'Green Oscars', are awarded annually to individuals from the Global South by UK-based conservation charity the Whitley Fund for Nature. Jeanne is one of six conservationists to be recognised this year for their achievements in nature conservation.

Amphibians are the most threatened group of animals on the planet with 41% of all species at risk of extinction. Almost two-thirds of the country's 135 frog species are found nowhere else, making South Africa a priority for amphibian conservation. Despite this, a combination of threats from habitat loss due to mining, agriculture and pollution are putting the country's frogs at risk.

In some South African cultures, frogs can be associated with witchcraft, making them often feared by locals. Jeanne's educational work aims to dispel such myths and raise awareness and appreciation of the important role frogs play in the health of the environment and ecosystem. The EWT's national awareness Leap Day for Frogs has attracted some 15,000 participants over the past five years. Jeanne has inspired school children with her "Frogs in the Classroom" learning programme, gaining young fans and earning her the title of the "Frog Lady".

Growing up in the southern Drakensberg mountains of KwaZulu-Natal, Jeanne was surrounded by nature. Following her undergraduate studies, she worked in the UK for five years before returning to her homeland of South Africa to specialise in the research of threatened South African frogs.

Some of the species that Jeanne and her team conserve include the Critically Endangered Amathole Toad, which had not been seen for over 13 years until Jeanne and her colleagues re-discovered it in 2011. Jeanne also works with the Endangered Picker's Reed Frog, with the number of known localities of this tiny 2cm amphibian on the rise thanks to her efforts.

In addition to education and field work, Jeanne works with government to ensure enhanced protection for frogs on a policy level. Supported by WFN, her team will produce a 10-year conservation and research strategy for South African frogs and protect 20,000ha of amphibian habitat conserving 8 species.

Jeanne said: “While South Africa has excellent environmental legislation, illegal developments continue to destroy frog habitats. Our aim is to not only improve appreciation of frogs through research and education but use our slippery friends as flagships for the wider conservation of vital freshwater and terrestrial areas that are under the increasing threat of humans. The fact that almost half of amphibians are experiencing declines should be a massive wake-up call to humanity that all is not right with our planet – most people however are unaware that amphibians are even in trouble.”

Edward Whitley, Founder of the Whitley Fund for Nature, said: “Jeanne is an inspiring leader who tirelessly advocates for amphibians – an often overlooked group. We hope that this Whitley Award will allow her to spread her important message far and wide, and bring about real change for amphibians and their habitat through science, policy, and community education.”

Six conservationists have won Whitley Awards and will each receive £40,000 in funding to support their work with a range of threatened species. While normally presented to winners by charity Patron HRH The Princess Royal at an annual Ceremony in London, the 2020 Whitley Awards Ceremony was postponed due to the COVID-19 pandemic. Whilst the winners will receive their funding now, they will be invited to attend a ceremony and related events in London later this year to celebrate their achievements, should circumstances allow.

This year’s Whitley Gold Award honours Brazilian conservationist Patrícia Medici for her outstanding dedication to protecting South America’s largest land mammal, the lowland tapir, using it as a flagship for largescale habitat preservation. Patrícia is a world expert in the science of tapir conservation and has dedicated her life to shedding light on this unusual looking, yet little-known species. Against a backdrop of political and environmental instability in Brazil, her work is more important than ever. The Whitley Gold Award enables the expansion of her work to the embattled Amazon.

Visit [www.whitleyaward.org](http://www.whitleyaward.org) to find out more.

**The 2020 Whitley Award winners are:**

**Abdullahi Hussein Ali** – A landscape-level approach to conserve the hirola antelope, Kenya

**Gabriela Rezende** – Connecting populations of black lion tamarins in the Atlantic Forest, Brazil

**Jeanne Tarrant** – A country-wide strategy for South African amphibians

**Phuntsho Thinley** – Stepping up patrols to preserve the endangered alpine musk deer, Bhutan

**Rachel Ashebofe Ikemeh** – Advancing participatory conservation action for rare chimpanzees, Nigeria

**YokYok (Yoki) Hadiprakarsa** – Saving the last stronghold of the Helmeted Hornbill, Indonesia

**The 2020 Whitley Gold Award winner is:**

**Patrícia Medici** – Tapirs as conservation flagships, Brazil

Tailor-made films featuring the winner narrated by WFN Trustee, Sir David Attenborough, will be released later this year. Contact Chloe Baker: [chloe@weareliquid.com](mailto:chloe@weareliquid.com) or Becky Jukes: [becky@weareliquid.com](mailto:becky@weareliquid.com) for more information.

**Notes to Editors:**

- The Whitley Fund for Nature (WFN) is a UK registered charity that provides funding, profile and training to grassroots conservation leaders across the Global South.
- The Whitley Awards are prestigious international prizes presented to individuals in recognition of their achievements in nature conservation. Each Award winner receives a prize worth £40,000 in project funding over one year.
- Whitley Awards are normally presented to winners by charity Patron, HRH The Princess Royal, at an annual Ceremony in London. In 2020, the Ceremony has been postponed due to the COVID-19 pandemic and will be instead held in December, if the situation allows.
- The Whitley Gold Award is worth £60,000 and recognises an outstanding past recipient of a Whitley Award who has gone on to make a significant contribution to conservation. Joining the Judging Panel to assist in selection, the Gold winner also acts as a mentor to Whitley Award winners receiving their Awards in the same year.
- Since its beginnings 27 years ago, the Whitley Fund for Nature has given £17million to more than 200 conservation leaders in over 80 countries.
- WFN operates a rigorous application process involving expert panel representation from international NGOs including WWF-UK, Fauna and Flora International (FFI), the Durrell Institute for Conservation and Ecology (DICE) at the University of Kent and the Zoological Society of London (ZSL). This year, WFN received 112 applications which passed through four stages of assessment, reviewed at every step by expert screeners and panellists who kindly offer their expertise voluntarily.
- The Whitley Awards are open to individuals working on wildlife conservation issues in biodiversity-rich, resource-poor countries. Further eligibility criteria are available from Liquid.
- Whitley Award winners receive professional media and communications training, network with leading conservation organisations, meet WFN donors and are interviewed by the media. The associated publicity of winning a Whitley Award puts a spotlight on their important work, boosting profile both in the UK and winner's home countries.

- The 2020 Whitley Awards week events are generously sponsored by Earlymarket LLP, Whitley Awards Partner.
- Whitley Award winners join an international network of Whitley alumni eligible to apply for Continuation Funding grants. These follow-on grants are awarded competitively to winners seeking to scale up their effective conservation results on the ground over multiple years.
- WFN is generously supported by: Anne Reece; Arcus Foundation; The Frank Brake Charitable Trust; The William Brake Charitable Trust; The Badenoch Fund; The Corcoran Foundation; Earlymarket LLP; The Evolution Education Trust; Global Wildlife Conservation; The Britta & Jeremy Lloyd Family Charitable Trust; Lund Trust, a charitable fund of Peter Baldwin and Lisbet Rausing; MAVA Foundation; Charles and Ruth Plowden; The Foundation for the Promotion of Wellbeing; The Rabelais Trust; The Reed Foundation; The Rufford Foundation; The Schroder Foundation; Fondation Segré; The Shears Foundation; The Constance Travis Charitable Trust; The Waterloo Foundation; Matthew and Lucinda Webber; Garfield Weston Foundation; Whitley Animal Protection Trust; the Friends and Scottish Friends of Whitley Fund for Nature; all our partners and supporters and those donors who have chosen to give anonymously.

### **About the Endangered Wildlife Trust**

The Endangered Wildlife Trust (EWT) has worked tirelessly for close to 50 years to save wildlife and habitats, with our vision being a world in which both humans and wildlife prosper in harmony with nature. From the smallest frog, to the majestic rhino; from sweeping grasslands to arid drylands; from our shorelines to winding rivers: the EWT is working with you, to protect our world.

The EWT's team of field-based specialists works across southern and East Africa, where committed conservation action is needed the most. Working with our partners, including businesses and governments, the EWT is at the forefront of conducting applied research, supporting community conservation and livelihoods, training and building capacity, addressing human wildlife conflict, monitoring threatened species and establishing safe spaces for wildlife range expansion.

A beacon of hope for Africa's wildlife, landscapes and communities, the EWT is protecting forever, together. Find out more at [www.ewt.org.za](http://www.ewt.org.za)
